

Shipping Policy

United Parcel Service (UPS) is our primary method of shipping. Shipping rates apply to all products. Our website accepts orders 24 hours per day, 7 days per week however, we will only process and ship orders during our normal hours of operation (8 a.m. - 5 p.m. P.S.T, Monday thru Friday). If you require rush delivery, be sure to order before 2 p.m. P.S.T. Most products will ship UPS via our San Diego warehouse. Please note that some products ship directly from the manufacturer.

We cannot ship to P.O. boxes, please specify a street address so we can ship your order without delay.

Non-personalized, in-stock products should arrive within 1-5 working days.

For individual items weighing over 150 lbs., CLO2 Safety Systems will contract out delivery with a reliable freight company. On orders that weight over the 150 lb., prior to processing and shipment, a shipping cost quote will be emailed to the buyer. Upon buyers approval of the shipping cost quote the order will then process and ship.
